# ECS4100-26TX-ME

L2+ Gigabit Ethernet Access Switch with two 10G Uplinks

The Edgecore ECS4100-26TX-ME switch is a Gigabit Ethernet access switch with two 10G uplink ports. The switch is ideal for Internet Service Providers (ISPs) and Multiple System Operators (MSOs) to provide home users with triple-play services with up to Gigabit bandwidth. The ECS4100-26TX-ME provides 6KV surge protection on Ethernet ports, which can prevent damage to the network caused by power surges and lightning strikes.

Description

The Edgecore ECS4100-26TX-ME switch is a Gigabit Ethernet access switch with two 10G uplink ports. The switch is ideal for Internet Service Providers (ISPs) and Multiple System Operators (MSOs) to provide home users with triple-play services with up to Gigabit bandwidth. It is also an ideal Gigabit access switch for SMB, enterprise, and campus networks. The
ECS4100-26TX-ME switch is packed with features that bring high availability, comprehensive security, robust multicast control, and advance

QoS to the network edge, while maintaining simple management. The switch also supports the most advance IPv6 management, IPv6 security, and IPv6 multicast control in accordance with the growth of IPv6 deployment. ISPs can expand their services from home to business users by providing a more reliable and resilient network (ITU-T G.8032 ERPS), L2 VPNs, and advanced OAM (Operations, Administration, and Maintenance) functions to ensure service-level agreements. The ECS4100-26TX-ME provides 6KV surge protection on Ethernet ports, which can prevent damage to the network caused by power surges and lightning strikes.
